an assurance for no fear...

Everybody can be great. Because anybody can serve. You don't have to have a college degree to serve. You don't have to make your subject and your verb agree to serve.... You don't have to know the second theory of thermodynamics in physics to serve. You only need a heart full of grace. A soul generated by love. ”

-Martin Luther King, Jr.

Happy Days...together

Our love story started in the Year 2000 at Baby Moon Junior College, Khammam where we both met each other while I was in MPC and Pardhu was in Bi.P.C., his passion was to become a Doctor, as his father was very keen to see him as a Doctor.

Our College days brought us together and we were in love for each other, but never lost our focus on studies. Both families agreed to perform our marriage. Everything was going smooth between us. But, there was some misunderstanding sprouted between the two families and they decided to call off the wedding proposal... not able to understand our state of mind and It was too late by then, myself and Pardhu were happily dreaming in life. We decided to bring a meaningful conclusion for our relationship by marrying. It was that time I joined Engineering course as I got 18000 rank and secured a seat in Vasavi Engineering College, Hyderabad. Though my family's economic condition was not so good, I joined college with a hope of completing it at any cost.

Pardhu's parents did not want him to help me and they insisted him further not to meet me perused him to call off the relationship. With all these tings, I was experiencing hell... not knowing what to do and how to complete my studies as I was helpless morally and socially. Pardhu met me at Hyderabad infusing life in to my thinking. It was he who motivated me to peruse the course without break and assured me that all the required support would be provided by him. That was his love towards me! I was really fortunate to have him at my side!

He kept aside his dream of becoming a Doctor as two of his attempts in EAMCET were not so successful and admission required lots of money. He resorted to do all sort of odd jobs for his love to me and started giving money for my Engineering studies. He was with me like a shadow putting in all his efforts to help me financially and psychologically making me to feel nothing will go wrong in our lives. We were married to each other in the year 2003 while I was still in second year engineering, with so much passion for each other and life.

HAPPY HOME...where we lived together

Pardhu was not able to do any degree he has to settle with his Inter qualification doing some executive jobs and after few years of hard work he got into the Sales Executive profile for selling and marketing demolition equipments. He started getting Rs.20,000/- PM. With him at my side, I am also able to complete my engineering in the year 2005. With so many hurdles in my life... only one person to support me in overcoming all the difficulties... **it was Pardhu**. Now I am working as Asst. Professor at TKR Engineering College with a pay package of Rs.16,000/- PM. We both were leading a good and happy life and blessed with a boy, we named him as Satwik, he is 4 years old now. We were feeling that all our difficulties were gone and we are settling in life as both of us working and earning reasonable salaries with some savings for our child and our future. We have recently brought a beautiful dream house at Alamasguda, Hyderabad spending about Rs.20,00,000/- with a home loan and own savings. It was just in the month of March'10. I thought this is a momentous occasion in our life.

Now please read on...what strange happened in my life...

July 26th was a fateful day for all of us at family when my beloved husband and my care taker Pardhu fell sick with body pain... we thought that it is a fever and general weakness or tiredness as his job demands travelling. But, First his leg got paralyzed and within hours his complete body got paralyzed and the severity was 90%. His body was not in his control!

We admitted him at Vivekananda Hospital, Somajiguda, Hyderabad. The Doctors after thorough investigations revealed that he is suffering with a very deadly disease called G B Syndrome (Guillain-Barré syndrome is a disorder in which the body's immune system attacks part of the peripheral nervous system. The first symptoms of this disorder include varying degrees of weakness or tingling sensations in the legs. In many instances the weakness and abnormal sensations spread to the arms and upper body. These symptoms can increase in intensity until certain muscles cannot be used at all and, when severe, the patient is almost totally paralyzed) coupled with diabetic neuropathy which occurs to one in 10,00,000 people.

We have spent all the saving amount and some of my friends, colleagues at TKR Engineering College came forward and supported me initially. Then in second face all my dear students at the College pooled money for my husband with their respect for me... till now with all that we were able to spend Rs.6-7 lakhs for his treatment. Doctors said that they have done everything medically and he can only recover by treatments like physiotherapy or pancha karma therapy which are very costly affairs and they say the severity is too high the recovery period may vary from 1 year to 4years.I am not left with any money to support his treatment who has lent his life for lifting me as a true husband and companion. I am clueless as to what to do now, there are 5 other family members at home who are all just studying and entire responsibility is being taken care by us.

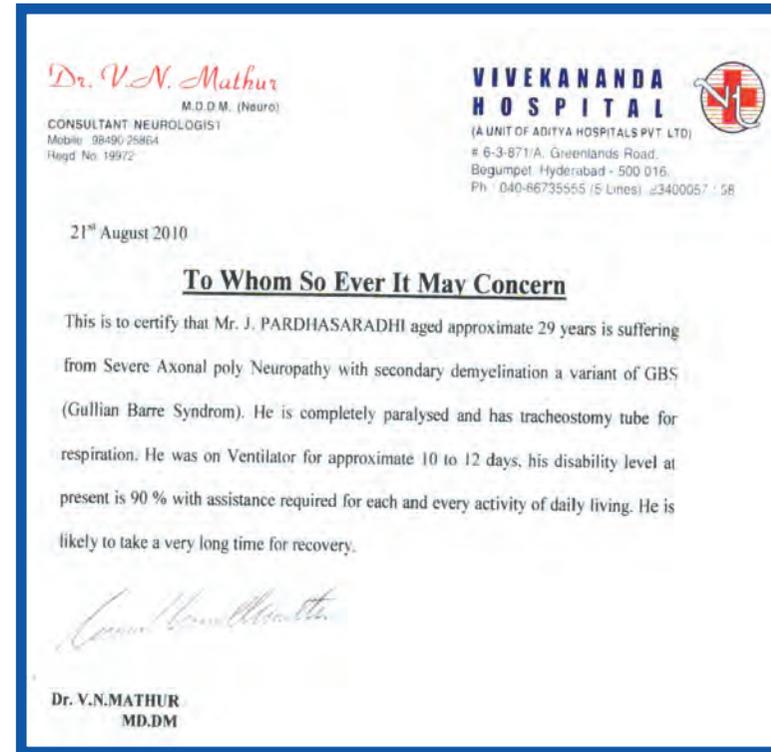

It was then one of my student Sharan met me in the college

and gave me Abhaya contacts. I called Abhaya in the night at around 9.30 pm on 8th September'2010...I was really amazed to see the Founder himself came to my house at around 4 AM in the early hours of 9th and enquired about our state of affairs. He spent some time with Pardhu and infused good vibrations to him.

Later he sat with me understanding the present needs of the family. While I was still digesting the fact that someone came to enquire in those early hours of the day, Abhaya handed over a cheque for an amount of Rs. 25,000/- as immediate assistance. It was with their advise I pen down my story, requesting you all to help me in getting back my husband to normal life and bringing back joy in our lives. We will be indebted to you all for life.

- Mrudula Pardhasaradhi ..

Abhaya APPEAL: Mrudula now very much need our prayers. Keep her and pardhu in our daily prayers. She would be in need of our financial assistance of Rs.10,000/- PM in next 2 years at least. Think what all you can do for this young girl who is facing such a disaster in her life. Abhaya very hearty pray god and you be with her during this time.

If in case you wish to support such abhaya initiatives you may please contribute to abhaya Foundation. please note that your contributions shall be in favour of abhaya Foundation by Cheque/DD for any of these projects, you may please send them to:

abhaya FOUNDATION, abhaya, 6-3-609/140/1, Anand Nagar, Khairatabad, Hyderabad-500004 and alternatively you can transfer the amount by TT / RTGF as per following Bank details.

Account No: SB-052210011051007 (all the 15 digits must be entered while transferring the funds to the foundation, else transaction would fail) we understand that some of you are mentioning only 5 last digits, now the system will not accept the transfer.

MICR Code: 500011042
RTGS/IFSC Code: ANDB0000522
Bank: Andhra Bank
Branch: S.R Nagar, Hyderabad

Purpose : Pardhasaradhy HealthCare

Please quote your address, email id, PAN while sending your contributions to abhaya for sending receipts.
