

Abhava Foundation

Dear loving and caring hearts!

Good Day and Greetings from ABHAYA...

We hope every one of you are in Good & Positive vibration in the life...though you are in your routine. here is a story of Ms.Priyanka(9) for all of us to understand and do the needful. The parents of this Girl Ms.Savitah & Mr.Madhukesh came to Hyderabad from Mysore for the love to their one and only daughter. They narrated the following with the tears in their eyes...

Madhukesh is coming from a poor family in the rural community in Bellary District. He just finished his Diploma in Civil Engineering. He lost his father and due to his employment in the Govt Polytechnic College...Madhukesh being given a Job on compassionate grounds with a salary of Rs.6,000/- Pm. He got married to Ms.Savitha about 10 years back. Some time later they being blessed with a baby girl...Priyanka

Till she was 3 years old...the parent could not identify the lapses in God's Creation in their home. When they realized that their cute baby is otherwise able kid and can not hear and talk...their pain knows no bounds. Since then for the last 6 years they tried their best to get the disability rectified. but this can be rectified with a surgery alone. Top of that for their astonishment they understood it is very costly surgery through which micro hearing aid would be placed in the ear establishing a connection to the brain. All this would cost about Rs.6.50 Lakhs.

All these 6 years or so they knocked every door around in their vicinity...they found no one to help them. then they felt depressed and moved to Mysore with a transfer order in hands with a hope to join this small girl in a special school.

Ms.Priyanka right now studying 4th Class...she is very sharp in understanding the conversations with lip moments...with the inability at her side, she stood boldly and learned dance! looking very sweet and CALM...with 90% disability...

How Abhaya got involved with this!

When the undersigned visited Office of the Registrar of Companies, Hyderabad on Thursday...Jr.Technical Assistant Mr.Chennakesava brought the case to the notice and sought for the help. We just thought if they were not able to come out of this crisis on their own for the last 9 years...why don't we all be at their side and bring them to be part of our loving care. With this thought in the heart...we spontaneously dialed 104 Tele Medicine Services from the ROC office and found that these type of surgeries can be well done by Apollo Hospitals.

an assurance for no fear

Abhaya Foundation

Then at once we called Dr.Rambabu garu, the Sr.Consultant explaining the case and sought his appointment on Saturday...then we called the entire family of Madhu to Hyderabad. They are staying with Chennakesava now. The consultancy being done at Apollo by Dr.Rambabu with out any charge. they also concluded this baby needs to be operated immediately as the more we delay the surgery...more remote are the chances to gain the efficiency.

Hence we took a decision to take up this case with all your support. Immediately we spoke to the Management of Apollo and explained the matter and need to them. They are kind enough to offer about Rs.1.5 Lakhs instantly to this girl thru SAHI charity wing. Dr.Rambabu also said he would consider no charge from his side for the surgery. Subsequently we tried to understand the hearts of the parents...they said they can bring a maximum of Rs.2 lakhs...leaving the gap of about Rs.3 lakhs.

How can we be of some help in this SEVA?

Think if you can help us in mobilizing some recourses...then just let us know how much you can do. If not able to spare your own...atleast forward this mail to some of the like minded people in the circle with your note seeking their help. If you are able to impress upon your Management/Clients...please do that and get some help form the corporate. If some of you have any influence in pharma companies...please try to connect to them...it may be a call for you to do the needful. If nothing is possible...start praying GOD...to take care of her...

If every thing goes smoothly with God's Grace...we are sure of doing the needful to beloved Priyanka by 1st January, 2009.

look forward to see your loving and caring action...

Remember even if we want to cross 1000 miles ... It would still start with 1 foot only...

If every step added...even 1000 miles can be crossed with out any difficulty.

Let you and me together be of some help to Miss Priyanka.

LOVE & LIFE for the County
