# Excerpts of the address by Prime Minister of India on the eve of Indian Independence

**Prime Minister, Sri. Narendra Modi addressed the nation from the ramparts of the Red Fort on the 68th Independence Day in an hour-long extempore speech. Following are the excerpts which are worth noting by every abhayan who wish to serve nation:**

My dear countrymen! Today, all Indians in the country and also abroad are celebrating the festival of independence. On this day of sacred festival of independence, the PRIME SERVANT of India extends greetings to all dear countrymen. I am present amidst you not as the Prime Minister, but as the Prime Servant...

...Unfortunately, we have an environment today wherein if you approach anyone with some work, he begins by saying "what does it mean for me?" He begins by saying "what does it involve for me?" and when he come to know that it does not entail any benefit for him, immediately he says "why should I bother?" We have to rise above the feelings of "what does it mean for me?" and "why should I bother?"...

...Everything is not for self-interest only. There are certain things which are meant for the country and we have to refine this national character. We have to rise above the feelings of "why should I bother?" and "what does it mean for me?" and instead we have to think that "I am for nation's interest and in this field, I am going to lead". We have to inculcate this sentiment...

...Brothers and Sisters, whether the citizens of the country should take steps for the welfare of the nation or not? You imagine, if these 125 crore countrymen move one step forward, then the country moves 125 crore steps forward. The meaning of democracy is not just limited to electing a government, but its meaning is that 125 crore of citizens work together joining shoulder with the government to fulfill hopes and aspirations of the country, this is the meaning of democracy...

...My brothers and sisters, it is a country of young people. The 65 percent population of the country happens to be under the age of 35 years. Our country has the largest number of youths in the world. Have we ever thought of deriving an advantage out of it? Today, the world needs a skilled workforce. Today, India also needs a skilled workforce. At times, we look for a good driver but he is not available, we look for a plumber, but he is not available. If we need a good cook, he is not available. We have young people, they are unemployed but the kind of young people we seek for are not available. If we have to promote the development of our country then our mission has to be "skill development" and "skilled India"...

...Millions and Millions of Indian youth should go for acquisition of skills and there should be a network across the country for this and not the archaic systems. They should acquire the skills which could contribute towards making India a modern country. Whenever they go to any country in the world, their skills must be appreciated and we want to go for a two pronged development...

...I also want to create a pool of young people who are able to create jobs and the ones who are not capable of creating jobs and do not have the opportunities, they must be in a position to face their counterparts in any corner of the world while keeping their heads high by virtue of their hard work and their dexterity of hands and win the hearts of people around the world through their skills. We want to go for the capacity building of such young people. My brothers and sisters, having taken a resolve to enhance the skill development at a highly rapid pace, I want to accomplish this...

...I want to appeal all the people world over, from the ramparts of Red Fort, "Come, make in India", "Come, manufacture in India". Sell in any country of the world but manufacture here. We have got skill, talent, discipline, and determination to do something. We want to give the world an favourable opportunity that come here, "Come, Make in India" and we will say to the world, from electrical to electronics, "Come, Make in India", from automobiles to agro value addition "Come, Make in India", paper or plastic, "Come, Make in India", satellite or submarine "Come, Make in India". Our country is powerful. Come, I am giving you an invitation...

...First, zero defect and, second again zero effect. We should manufacture goods in such a way that they carry zero defect, that our exported goods are never returned to us. We should manufacture goods with zero effect that they should not have a negative impact on the environment. If we march ahead with the dream of zero defect in the manufacturing sector then, my brothers and sisters, I am confident that we would be able to achieve our goals...

...The real identity of India had not reached the world, but my dear brothers and sisters, our youngsters, 20-22-23 years old youngsters have mesmerized the whole world with their skills in computers. Our young IT professionals have given a new path of making a new identity of India. If our country has this strength, can we think something about the country? Our dream is, therefore, of "Digital India". When I talk of "Digital India", I don't speak of the elite, it is for the poor people...

...Brothers and sisters, I do not know how my speech is going to be criticised and how will people take it. But this is my heartfelt conviction. I come from a poor family, I have seen poverty. The poor need respect and it begins with cleanliness. I, therefore, have to launch a "Clean India" campaign from 2nd October this year and carry it forward in 4 years. I want to make a beginning today itself and that is - all schools in the country should have toilets with separate toilets for girls. Only then our daughters will not be compelled to leave schools midway. Our parliamentarians utilising MPLAD fund are there. I appeal to them to spend it for constructing toilets in schools for a year. The government should utilise its budget on providing toilets. I call upon the corporate sector also to give priority to the provision of toilets in schools with your expenditure under Corporate Social Responsibility. This target should be finished within one year with the help of state governments and on the next 15th August, we should be in a firm position to announce that there is no school in India without separate toilets for boys and girls...

...Sansad Aadarsh Gram Yojana. We shall fix some parameters. I urge upon the Members of Parliament to select any one of the villages having population of three to five thousand in your constituency. The parameters will be according to the time, space and situation of that locality. It will include the conditions of health, cleanliness, atmosphere, greenery, cordiality etc...

...I am reminded of the words of Swami Viveknanda. He had said - "I can see before my eyes Mother India awakening once again. My Mother India would be seated as the World Guru. Every Indian would render service towards welfare of humanity. This legacy of India would be useful for the welfare of the world". These words were spoken by Swami Viveknanda ji in his own style. Friends, the words of Viveknanda ji can never be untrue. The words of Viveknanda ji, his dream of seeing India ensconced as World Guru, his vision, it is incumbent upon us to realize that dream. This capable country, blessed with natural bounty, this country of youth can do much for the world in the coming days...

...It is the need of the hour to eradicate poverty, can we not overcome poverty? Can we not defeat poverty? My 125 crore dear countrymen, let us resolve to eradicate poverty, to win against it. Let us move with the dream of poverty eradication from India. Our neighbouring countries are also faced with the same problem. Why not get together with all the SAARC nations to plan out the fight against poverty? Let`s fight together and defeat poverty. Let us see at-least for once as to how wonderful is the feeling of being alive instead of killing and getting killed...

...Brothers and Sisters, today on 15th August we will resolve to do something for the country. Let's be useful for the country, we will move ahead with a resolve to take the country forward, and I assure you, Brothers and Sisters, as well as my colleagues in the Government, that if you work for 12 hours, I will do so for 13 hours. If you work for 14 hours, I will do for 15 hours. Why? Because I'm amidst you not as a Prime Minister, but as the first servant. I have formed the government not as a ruler, but as a servant...

## WHAT WE HAVE:

Constructed premises, Additional land, Dorm facilities, People with different skills and capabilities, Network of relationships

## WHAT WE WANT:

Sustained cash flows to support HoH and the people sheltered there, Serve the social cause it had aimed, Support as many households as possible,

## HOW?

**Direct: Organic farming** – Little long term investment, but valuable, Use modern farming techniques through the agricultural university, Focus on organic farming for the long term, Evaluate taking additional land on lease,

**Handicrafts:** Get a trainer e.g., "Kondapalli" toys, Origami items etc, The cost of the trainer could be sponsored (you can count me as one of the sponsors), Sale through the abhaya network, Promote corporate gifting, Eatables like pickles and papads, Low hanging fruit, Focus on traditional items, Sale through the abhaya network, Exports?

**Catering to the colleges around:** Start small and may be, keep small, May not make much money but cover the running food costs, Initially, could request the colleges to pick up the food periodically,

**Rural BPO:** Good potential to train the villagers, provide livelihood to them and also earn some money for the organization, I am not sure about the local talent, but should be able to find 10th or 12th grade students, The employees of this rural BPO would not only be the brand ambassadors but also contribute a small portion of their salary to aHoH, Please look at <http://www.ruralshores.com/> and <http://www.desicrew.in/>, I had already spoken to the co-Founder of RuralShores and requested they engage with aHoH

**Indirect:** "Adopt" a person, Get a trainer and find a sponsor to bear the costs, Health insurance companies to "sponsor" through mediclaim policies

## CSR Update

### Slum area development' to be considered CSR activity: Government

Expanding the ambit, works carried out by corporates for slum area development will be now considered as social welfare spending activity under the new companies law. Through a recent notification, the Corporate Affairs Ministry has added 'slum area development' to the list of activities that would classify as CSR under the Act. In this regard, the Ministry has amended Schedule VII -- pertaining to CSR works -- in the Companies Act, 2013.

"The term 'slum area' shall mean any area declared as such by the central government or any state government or any other competent authority under any law for the time being in force," it said in a notification dated August 6.

In June, the Ministry had said slum re-development projects and housing for Economically Weaker Sections (EWS), among others, would be covered under CSR. Among others, works in the areas of disaster relief and setting up of trauma care around highways in case of road accidents would also be covered, while any project meant for development of rural India would be a permitted CSR activity. Livelihood enhancement and rural development projects, working towards protection of national heritage, art and culture, including restoration of buildings and sites of historical importance and works of art, setting up public libraries, promotion and development of traditional arts and handicrafts would come under CSR ambit.

Various activities aimed at reducing inequalities faced by socially and economically backward groups have been included. Measures for the benefit of armed forces veterans, war widows and their dependents, setting up homes and hostels for women and orphans, setting up of old age homes, day care centres and such other facilities for senior citizens would be considered as CSR work. Other CSR activities include ensuring ecological balance, protection of flora and fauna, animal welfare, agro-forestry, conservation of natural resources and maintaining quality of soil, air and water.

**Govt provides clarity on CSR activities under Companies Act:** for corporates, the government has said that "one off events" such as marathons and sponsorships of television programmes would not be considered towards CSR expense. Under the new Companies Act, certain class of profitable entities are required to shell out at least two per cent of their three-year annual average net profit towards Corporate Social Responsibility (CSR) activities. Asking stakeholders to "liberally" interpret the provisions in Schedule VII (Companies Act) — that relates to CSR works — the government has said that CSR activities should be undertaken only in "project/programme" mode.

## **Jaitley wants India Inc to hire more ex-Army men for CSR**

Defence Minister Arun Jaitley urged the corporate sector to utilise the services of ex-servicemen for meeting their requirement for a highly trained and disciplined work force. "Corporate India requires trained and disciplined manpower and the ex-servicemen provide a big pool of such people. Their commitment to work is paramount, their discipline is very high and they have worked in difficult conditions". The Defence Minister was addressing the Directorate General of Resettlement Conclave where industry body CII and the Army would work together to provide jobs to ex-servicemen. He said the majority of ex-servicemen retire early from the forces but they are "never tired and are always willing to go on in life".

## **Government plans to set up Corporate Social Responsibility portal**

August 21, 2014, NEW DELHI: To provide a "one stop virtual shop" for all social welfare spending needs of companies, government plans to have a Corporate Social Responsibility (CSR) portal along with data analytics platform. The proposal comes against the backdrop of the new companies law mandating certain class of profitable businesses to shell out at least two per cent of their three-year annual average net profit towards CSR activities. CSR norms under the Companies Act, 2013.

Aug 4, 2014, NEW DELHI: Forty one central public sector enterprises, having annual profit of atleast Rs 10 crore, failed to comply with government's spending norms on social welfare activities during 2012-13 fiscal, apex auditor CAG said.

A review of the CSR budget/expenditure by the CPSEs during 2012-13 was conducted in respect of 103 central public sector enterprises (CPSEs) with profit of above Rs 10 crore.. "Out of the 103 CPSEs, 41 CPSEs did not comply with the Department of Public Enterprises (DPE) guidelines in terms of the minimum CSR budget/expenditure. ## Mission Teena

Teena is a 4 year old baby and she is suffering from Acute Lymphoblastic Leukaemia-L2 variant. Teena's Father is an employee in a medical factory in Gujarat and he has spent money above his level and he cannot further afford the cost of the treatment. Her mother is a house wife. She also has a sister who is 9months old now.

As per Doctors the treatment will cost about Rs. 10 Lakhs to overcome this disease based on his experience at Basvatarakam Indo American Hospital (Hyderabad). Her parents have no source of arranging this amount except through donations. So we took up this case and we are trying from our end to pool up the required amount. But we know that it's highly impossible for us to pool 10lakhs which is a very huge amount.

Important thing is that she is in a curable state and she can come out of danger , if we can provide her right treatment in right time. Request you to please understand the situation and hence pleading you to assist them with the required financial support. Hope with your help and assistance, she will be out of danger and lead a new life.

## Latest Update of Teena:

9th august, we visited Basavatarakam hospital to meet the girl and her parents to know the status. Teena undergone biopsy test and she couldn't come with us to meet the doctor. With the reference of you, we met Dr. Rajagopal who is a doctor in the same hospital and we got a chance to explain him about the case of baby Teena. After listening to Teena's father Mr.Rajagopal told us that he would talk with concerned doctor who is treating Teena and also other doctors, staff and informed us that he would request the donors to route the donations to Teena .He told us that he would try to help at his best.

We are exploring the possibilities of getting the attention of general public with the support of media houses. Also sent detailed appeal to President, PM, CM's of AP, GR seeking their support for this girl. As of date we could pool Rs. 40,000/- with the support of abhaya. We appeal each abhayan to stand by Teena as the treatment goes for at least a year. The plan is to pool at least Rs.10,000/- PM for this girl. - **Raghava Annavarapu, Voulanteer (ADP, Hyderabad)**

Founder and his friends visited my home on 12th July 2014, where I introduced my family to abhaya. I got 44 marks out of 50 in the history exam which was conducted for 2 chapters. I have classes from 7am-12pm and again from 1:30pm-9pm so I did not make any efforts to arrange

required funds

I am fine here with bountiful blessings of abhaya & hope all abhayans are leading healthy and prosperous life. I have attended final exams & performed well in those exams better than internals. Out of all papers physiology paper -2 was somewhat difficult to me. By God's grace I was able to manage time & I crossed all problems whatever I faced in internals. From 11th onwards, practical exams are going to commence. still I didn't start any serious preparation. I have to wait for results to know whether I have reached my goal or not.

On 3rd Aug my family shifted to Anantapur. From second year onwards I want to become day scholar. I would feel happy if mother & sister stay with me. They got transfer to respective school & college in Anantapur. Right now we are living in Aravindnagar, very near to my college. So in between these days I was busy in shifting the things. We moved to new [rented] home and started our life spiritually with bhajan. So many members of sai family helped us in this process even financially. This house is very comfortable with good ventilation, good environment, etc., Monthly rent is Rs.3000/- . From 15th Aug onwards we will be having

holidays & am planning as how to spend the time. Due to exams I was unable to participate in any other activities. I have spent whole month in Just reading & thinking about new home that's all. – **K Sailatha, II Year MBBS, Anantapur Govt Medical College**

### A progress card of 5 years for the School

#### Points worth noting:

- ☞ Received Government recognition for 5 years
- ☞ The school strength from 80 to 190 Students in 5 years.
- ☞ Constructed class rooms whose value is about Rs.7,50,000/-
- ☞ Provided Noted Books, Toys, Play Equipment Uniforms etc.,
- ☞ Established Computer lab for the benefit of kids
- ☞ 300 students got benefitted from the school in the 5 years

- ☞ Fee is Rs. 100 – 170/- PM & its hardly paid by majority
- ☞ Rs. 7.5lakhs spent since 2008 for variable expenses

#### Points of Concern:

- ☞ We have to make renewal Application for School in Jan' 2015.
- ☞ There is acute problem in getting qualified teachers. Inter pass candidates are not available in the village. Even if they come, they are leaving after few months and the staff is not so dedicated in discharging duties.

☞ We have water problem. Couple of borewells dried and now the issue coupled with power cuts. Children have to go at least 500 meters crossing the road for water.

☞ Children who finished their 5th class here they have to go next classes to Govt., School & any other. Thereby our school is losing its prominence.

☞ Due to lack of technical support, it is becoming difficult to repair computers, hardware, software and batteries.

☞ There is no response from parents due to illiteracy in spite of we providing the kids with note books, uniforms & we held many meetings but the there is no response .We observed this for 5 long years.

## Educare Update - KARE School

**Pre Independence Day events at KARE School:** abhaya saluting KARE School... Students and Staff for their passion in learning life. Wahidji (Founder KARE) was the Founder's translator and his voice in Urdu made a heavenly difference for the assembly. abhaya considering to stand by them by sponsoring a teacher with a monthly support. Thanking MANI CTS Out Reach Head and the team TEACH for India for their effort in teaching kids. All together, a wonderful visit to the school which created long lasting impression in our lives.

Firstly I would like to Thank founder for inviting me to join the Pre Independence day Celebration at KARE School. When I step in KARE School there were many students whose eyes were filled with loads of happiness, excitement and a bit nervousness. That nervous feeling was diluted when sir accompanied them. Sometimes motivation acts as a tool for selecting the successful ladder, sir speech was full of motivation which inspired many students, the speech which includes stories of many freedom fighters who also love to be a student till their death.

There were various performances by the students which were encouraged by the school management and Abhaya Team, after that we inspected each and every class, we notice that the infrastructure was not spacious, and there was no playground as well and many teachers were very young to be in teaching field, Abhaya promise to provide a teacher for the school as they noticed the same. There were more than 600 students in school who aim to be well educated for better tomorrow. This indicates Abhaya team is really working very hard to identify the good investment sector. It is reaching the edges where government fund does not reach.

Finally, I would like to thank Abhaya team for inviting me and will always pray that may Lord strengthen them to reach many such areas in our country (ameen) - **Amreen Gulnaaz, Student C.S,FAPCCI, Hyderabad**

## Educare Update - GVK School

We have gone through the news. Smt Indira Vadapalli, USA, has suggested certain improvements. We are thank full for positive suggestions given by her. In this regard we would like to inform the following.

- With limited financial resources we are making every effort to maintain the washrooms clean and tidy. Further we intend to make the washroom floors fit with tiles as soon as we receive sufficient monies .we are guiding the students to use washrooms properly and cleanly.
- We arranged meeting with the head mistress, Aaya and ANM with girl students and counseled the girl students to use the sanitary napkins in proper way during menstrual period and dispose them s properly.
- Every year we are supplying two pairs of uniforms to students. We are also supplying detergent soaps fortnightly to students for washing the uniforms through school donations.
- Library books are being kept in two almarahs. We intend to buy open rakes to house the books subject wise. Further we also like to buy CDs for visual grasping of the subjects by students the moment finances are improved
- Two donors are extending each Rs. 1000/ to first class students of tenth class. The cash award is being given to students on 15 August every year.
- We are seeking people to adopt our meritorious students through our brochures / pamphlets
- With available funds we arranged water pipe lines to the school. However, we will take every steps to further improve the water supply pipe line system for better use of water by students.
- Teachers are being counseled regularly for enhancing their skills so that the students get benefitted ultimately.

We are trying to make every effort to improve overall conditions of education to the students. We are very much happy for the suggestion given. We strive to bring the suggestions into practice.

10.08.2014 all the students and staff were celebrated Raksha Bandhan Utsav in the school. Myself and Headmistress addressed the student towards the festival of Raksha Bandhan.

15.08.2014, The Independence day was celebrated in the school. Sri Namana Bhujanga Rao, Correspondent of the school hoisted the National Flag and addressed to the students regarding the Independence. On that occasion competitions were conducted about Vyasa rachana, Desa Bhakti Geetas, games and sports. Prizes were given to the students through the hands of the correspondent.

27.08.2014 GVK board meeting will be conducted at Rajahmundry. In that meeting we will discuss the all the matters that is donations, improvements and also another subjects. - **S. Bhavanarayana, Joint Secretary, GVK School, Addatheegala**

Current State

The TEAM Sevalayam has taken up the repair and renovation of the room where X STD Students keep their belongings and study. The tiles in the roof were broken, the floor is in bad shape in most of the place, the window mesh needed replacement. With the onset of rainy season, the children will find it very difficult to stay in this room with the open holes above their head in the roof. So, this work is taken up on priority basis and is in progress. This is estimated for Rs.1.20 lacs.

We are grateful to abhayans for having contributed to replace the tiles with Tata metal sheets which reduced the above target by Rs.38k and was a booster to go ahead by us. The roof is in place with some minor repair works - like replacing the worn out wooden reapers, painting them etc., having completed. We have collected Rs.20k and spent for this Project.

Mr. Ezhil, a philanthropist, who has been giving continuous support to Sevalayam, assured to arrange for the supply of sand, cement, bricks and pebbles needed for the work which may take care of Rs.20k to Rs.21k. We are hopeful to get additional support for Rs.10k and the total expectation is Rs.30K. After all the above, there is a shortfall of Rs.30K approximately and we are still on the job of mobilizing to complete the task.

There had been delay in this supply and the work was held up for some time. Now, today the materials are received and the work is being started now. Though, we are confident to mobilize. it will take time. Can abhayans further lend a helping hand so that sevalayam children can have comfortable stay at short duration? Kindly do the needful.- **CS S Nakkiran, Bangalore**

## Empowering Youth of Qutballapur, Jeedimetla, Hyderabad:

The TEAM Blooming Flowers, since the Founder addressed at their seminar in the month of January 2014 at Bhagyarathi Degree College, were in touch with abhaya and its team. They passionately wished to do something for the community but know no means to do that. They met the founder, who empowered their team considering the points of improvement (no coordination, exams, change in priorities, lack of guidance, losing interest, restrictions in house etc., )

### WHAT IS EXPECTED FROM the Team:

1. It is suggested to have abhaya as plat form to grow in terms of leadership and service.
2. Must spare 2 hours a day and should be available for 1 complete day per week.
3. All the volunteers should contribute Rs.100/-per month as to meet expenses in support of abhaya
4. At least 2 small events and 1 big event should be conducted by the volunteers per month.
5. The area for work is Jeedimetla and it's surrounding areas in Hyderabad.
6. Every individual should identify the talent in them and should work as per their skills

## ACTIVITIES THAT CAN BE PLANNED:

1. Identifying all the Govt. and Pvt. High schools in Quthbullapur area and the small sessions should be conducted to the school students:

## TOPICS ON WHICH SESSIONS SHOULD BE CONDUCTED

**6. Look out for the poor and the meritorious students in order to support them for their higher education:** Look out for the poor people who are meritorious and lack resources, as we can support them by helping economically for their further studies.

## YOUTH EMPOWERMENT PROGRAMS:

**1. Computer training:** Apart from this we can give computer training to the unemployed and under employed youth who lack computer knowledge, we can give computer coaching on MS Office, TALLY, Focus etc., for such students.

**2. Spoken English and free tuition: Students who lack English skills can be given free tuition for spoken English skills through which they can attain better score in their subjects.**

I am really very happy today on meeting you all because hereafter I do not have to stress, asking the people to coordinate with me. Now, as I am the volunteer of abhaya, I can spare as much as the time possible to do my bit. I will collect the list of schools before 24th so that, immediately we can start working on it. Actually I thought of saying my team members to dilute blooming flowers team and thought of asking them to work with abhaya yet I was hesitant. But today I felt relieved when everyone volunteered to work with abhaya. I don't have any problem with my parents as they encourage us so much to do these kind of activities. This time I will stand by my word and involve in the activities of abhaya.- **S. Natya, Coordinator, Hyderabad**

I am Very happy to ? say I am one of the volunteers of abhaya Foundation. Till now we suffered a lot with no guidance and no support but after discussing with the founder about our draw backs and our feelings are able to get some idea about our further work. We are ready to contribute one day a week and 2 Hrs a day and Rs: 200/- per month. We are ready for the Mission. Collecting the list of the schools and colleges for the mission is already in progress, and now searching for the venue is the only matter in pending. - **Gopi Manohar, Coordinator, Hyderabad**

## Rural Development Update

### Anand@Adoni

The estimated cost of setting up a Paper Agency is about Rs. 90,000/- and abhaya advised the Anand family to gather the support to the tune of 20% of project cost locally. Anand is trying his best to pool 15-20K. abhaya asked him to take loan from someone, as he can repay the loan continuously after starting the paper agency. As of now he don't have any pool in his hand. His brother is the only bread winner for the family with Rs. 4000/- a month, which is not sufficient for them to meet the monthly expenses of the family.

### Lakshmi@Alampuram

Ch.Lakshmi and her Son, Ramesh met the Founder at Rajahmundry during his visit to GVK School seeking help to reprogram their life. The plan was to purchase a COW / Buffalo. After discussions with founder, they decided it is costing about Rs.60,000/- and further linked with lots of maintenance. Ramesh who is working in a welding factory with a monthly salary of Rs.4,500/- per month, requested abhaya to assist him in setting up a welding tools rental business and he can also do a part time job after finishing his regular job.

abhaya suggested them list out all the tools needed for setting up such business and also take estimate from dealer. I being volunteered to take up the mission enquired with the shop keeper for the tools and could get lowest quotation from Sairam Machine Tools Agencies, Tanuku and forwarded the same to Abhaya Foundation for their support. I have pooled about

Rs.16,000/- from my friends, relatives in support of this cause. abhaya very kindly provided Rs. 24,000/- support and the total cost of all tools coming to Rs. 52,000/- and Ramesh will try to pay the balance in next couple of months with my support. We all thank abhaya for standing beside them for their new life. – **P Savithri, Volunteer (NCC Group, Hyderabad)**

## Transformation Update

### Sandeep want to be part of abhaya:

Effect of Founder's session: It made many youngsters to connect to community work. Blooming Flowers invited the Founder to Bhagyarathi College, Jeedimetla in Jan 2014. Sandeep, studying II B.Com., inspired by the session... tried to connect to him since long with his attitude of serving the destitute. He sought the appointment of Founder and met him thanking

for the session and told that he is also working like a security boy at NCR Corporation, Begumpet... he is multi talented poor boy wishing to be different and sought support of abhaya. More powerful is that... he keep reading one quotation from Swami Vivekanada's book... he says that they are power capsules for him... he just sleeps for 3 to 4hrs a day... really inspiring boy. GOD Bless him.

Founder had a rare fortune of hoisting the tricolor at Hyderabad chapter of I C S I n sharing his thoughts about INDIA (Individual -National - Devotional - Inspirational - Aathma) thanking Management Committee for giving an opportunity to propagate the cause of patriotism

### Independence day Celebrations

### VIHE Khammam TEAM met the Founder:

I have joined TATA MOTORS, PUNE. Today we had the CSR session of TATA groups in which many activities are being carried out. One of the activities is that of YUVA SARATHI mission. To provide both guidance and financial help to the students of 8th to 10th classes of the needy society. I have shown my interest in participating in the CSR activities and very soon I am involving in serving the needy society.

Coming to the progress YUVA SARATHI , it was a little bit slow progress with the local team. The volunteers were not able to attend on Saturdays due to their academic career. Can we have any suggestions regarding the events that we can do on Sundays for the needy people. - Palli Deepak, TATA Motors, Pune

This is Shiva Kumar Khambhampati, USA. I came to know about you from my friends who are volunteers of abhaya (Mounika and Jahnavi Rodda), charity is a great word and to follow that great word we should have great values and should follow them too. I started to hear a lot and started to do something. I am inspired by many and you are one amongst them, during my childhood, we used to collect money and donate and then days passed out and forgotten all those, but seeing your interview in Sakshi TV... listening to your words " Viluvaina jitham kantey Viluvalu gala jivitam minna" I am inspired and started to donate. You have lend your hands to many in need... it is all really awesome.

But, more than charity... few people need justice as they are looking for someone who provide justice to them, we walk along with you... why don't you stand besides those who were struggling with small problems because of some government officers etc., You stand beside girls who are victims of acid attacks and rapes, I appeal you to please stand beside them, I don't know, this email reaches you or not but still want to say you are the one who motivates people and we are ready to walk behind you. It is not my suggestion but my request.

**(abhaya replied him Everything is possible... but abhaya need to have 10 SoulDears who stand besides it, he said: I can't be a leader sir because I'm in abroad now, but please give a try to such issues I can show people to stand by you.Thanks again I didn't expect this fast reply from you)**

"When we pose for a photo graph...  
we keep a smile on our face...  
as soon as we hear READY!

But, we never be knowing...  
when GOD will click our life  
to create a Photograph!!  
HE won't be saying... Be READY...

Best thing is to keep our self READY  
by engaging in GOOD Deeds"
