An assurance for no fear

Dear Friends! Life is a wonderful journey and God has blessed all of us with success both in Personal and Professional life. To do any social / service activity, One needs to have positive attitude and heart filled with love, as god sathya sai baba always says "that hand that serves are holier than lips that pray".

I have completed 3 decades of professional life and continuously with the blessing of almighty and blessings of my parents I am spending minimum of 1 hour every day to do social service to help the needy both in educational and medical relief.

I am presently Secretary of Lions Eye Hospital where in we have done more than 150000 free eye surgeries. As President of Kidwai Cancer Drug Foundation I am interacting with the patients who will be facing end of their life. Medicines worth Rs 18 crores being given on discounted price every year.

I am always of the view that every one of us would have received benefit from the society at one or other occasion. So undoubtedly in our life time we shall be obligated to the society. So whatever we do to the society it's only repaying our obligations to the society and not to construe as charity. As student of free hostel during my study time I got benefited and now god has given me the great opportunity to extend scholarship worth 1 Cr to more than 1000 students in the state of Karnataka. This activity is possible because of involvement of 200+ young generation professionals/ business entrepreneurs.

As we are Indians... doing charity is in our DNA itself. When Companies Act, 2013 provided for CSR activity, why not we being professionals without any statute should come forward and contribute a portion of our earnings to any good foundations who are doing yeoman service to the society.

I am very much impressed when I met the Founder, through my good friend CA AV.Sathish Kumar. His motivational words, thoughts, vision and urge to do service to the humanity touched my heart. Who ever is in contact with him will endorse my opinion. I am seeing Swami Vivekananda in him and action and love of Bhagavan Sri Sathya Sai Baba. He has totally pledged his life as karma yogi to LIVE for the most deprived. His message to me drawn lot of attention and enthusiasm and was eager to know more about the foundation and activities in the fields of HEART, CSR - Initiation to Implementation, Serve by all means, Serve above self, Positive attitude coupled with positive vibrations and motivation will surely inspire every individual. His passion to serve is amazing. I am thankful and fortunate to come across in my life such a noble, humble, simple and man of action with great vision.

I am very much impressed and inclined to extend all the support both financially or other wise-everything that is possible in my life to abhaya. Let us come together, let us work together and let all of us serve together to the

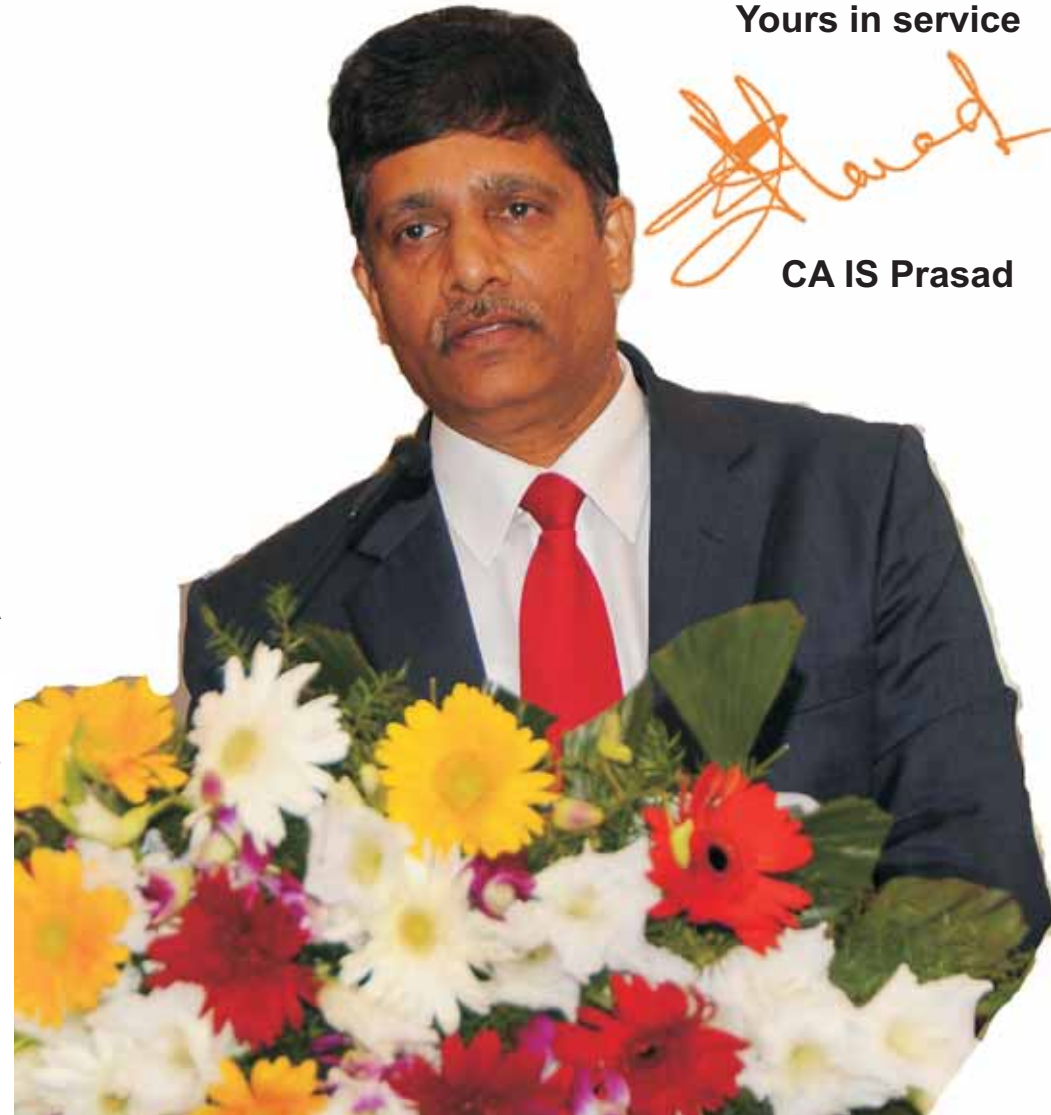

needy. let us pray god to give more strength, energy and support from all source to abhaya.

How many year we live we don't know but as long as we live, let us realize how to be happy, how to make other happy and how to extend support to under privileged. Let us all join hand with TEAM abhaya to make a difference in thinking, difference in action, like winners don't do difference things, but they do things differently. Let us prove to entire corporate world that abhaya Foundation will determine and promise to serve beyond expectations. Service means Abhaya, Abhaya means Service... a true promise to serve & "Serve by all means"

**with warmest regards
Yours in service**

Government to clamp down on CSR activities of tobacco companies; disallow ads on mobile, Internet

NEW DELHI: Tobacco companies, already in the frying pan because of an impending ban on the sale of loose cigarettes, may be about to be tossed into the fire in the coming weeks with the

government planning to bar them from using their social outreach activities to earn goodwill.

The government's planned new anti-tobacco legislation, news of which sent cigarette stocks crashing on Tuesday, will discourage manufacturers from "earning goodwill" through their legally mandated Corporate Social Responsibility (CSR) activities, officials familiar with its drafting have told ET. This could choke off the few remaining outlets for earning societal goodwill for these firms, which have traditionally tended to publicise their social outreach efforts not least because of strict curbs on advertising and marketing their products.

Water resources minister requests corporates to channel CSR funds towards drip irrigation

BENGALURU: The Siddaramaiah regime is planning to rope in corporates in its ambitious scheme to get sugarcane growers in

Karnataka switch to drip irrigation. The government has decided to seek funding help from industries and corporate houses as a significant amount of water saved through the programme will go to industries. "Industries need a lot of water to meet their current needs and if they have to expand. By making our farmers adopt drip irrigation, we can promote new projects and help industries...

The Water Resources department has come up with a scheme under which banks would lend money to about 7 lakh growers to help them buy drip irrigation systems. "Our farmers grow sugarcane in about 10.85 lakh acres. While the average yield is about 35 tonne per acre, by adopting drip

irrigation, they can get an increased yield of 65 tonne per acre," he said. If the entire farmland moves away from flood irrigation, it will result in an annual saving of 186 tmc feet of water.

Water supply works must under CSR

NAGPUR: In view of importance of water supply and sanitation works in the state, the government has made it compulsory for big companies to undertake these works under corporate social responsibility (CSR). It has formed committees at state, revenue division and district levels to achieve the objective. All committees will have a representative of Bombay Chamber of Commerce to present industries' viewpoint. A single window system will be started for industries requiring clearances for such works.

The works include rain water harvesting, undertaking various works to increase ground water level, providing technology that helps in supplying drinking water at minimum cost, installing meters in villages to measure its water consumption, etc.

Home team wins suggesting e-touch to CSR

LUCKNOW: Tie-up with multinational-companies and collaborating with online e-commerce websites can add to donations. This idea won Indian Institute of Management Lucknow team the top prize at Yajna, the pan-India CSR (corporate social responsibility) challenge in association with HelpAge India. The team also suggested that television must be used to increase awareness about the importance of donation for the cause of elderly.

Students from different B-schools who qualified for Yajna finals were given a case study where they had to come up with a three-year consolidated marketing plan to make donations for well-being of elderly citizens of the society as one of the top three causes for donations. Revolving around sensitising masses to the needs of elderly care, the challenge was open to all graduate, post-graduate and doctoral students.

Education is the most favoured area for CSR spend in India: Mercer survey

BL, NEW DELHI,
NOVEMBER 14:

Education emerged as the most favoured area, followed by community-based development and environment sustainability for CSR spend by companies surveyed by global consultancy major, Mercer, which is part of Marsh & McLennan Companies in India consisting of Marsh, Mercer and Oliver Wyman.

Releasing the findings, the survey said 81 per cent of companies said their corporate social responsibility (CSR) spend was on activities concerning education, 64 per cent on community development and 61 per cent on environment sustainability.

With the new Companies Act in India mandating that 2 per cent of the average profit should be spent on CSR, 81 per cent of the surveyed companies said this had become an important part of their business strategy, Mercer said in a release.

Across industries and company sizes, budgets for CSR were varied, ranging from ₹ 900,000 to ₹ 25 crore a year.

According to the survey, conducted across 40 organisations in different Indian cities and across sectors, 73 per cent companies said they already had a CSR policy in place, 17 per cent said they were undertaking such activities without a policy or guidelines, while 10 per cent said their company did not undertake CSR activities.

"The importance of CSR/sustainability is seeping deep into Indian companies as three out of four companies in India already have or are planning to form a core team dedicated to CSR/sustainability within the next one to two years," said Shanthi Naresh, Mercer India Business Leader, Information Solutions.

The survey, which has also been carried out globally, showed that nearly 44 per cent of Indian companies said they had a dedicated team responsible for CSR, compared with only around one-quarter of companies globally having a dedicated team.

India Inc to spend R14,000 crore towards CSR in 2014-15: Jaitley

Press Trust of India | New Delhi | Posted: November 5, 2014 3:37 am: Finance minister Arun Jaitley on Tuesday said companies are expected to pump in as much as Rs 14,000 crore for Corporate Social Responsibility (CSR) activities in 2014-15 and the amount will be increasing in subsequent years.

"... CSR alone in its very first year is going to contribute about Rs 14,000 crore into the (social) sector and that's reasonably a large amount of money. This is going to increase year after year as corporate profits increase," he said while speaking at a function organised jointly by the Jubilant Bhartia and Schwab foundations.

Under the new Companies Act, certain class of profitable companies are required to spend at least 2 per cent of their three-year average annual net profit for CSR activities. The minister later gave India Social Entrepreneur of the Year 2014 award to Hanumappa Sudarshan of Karuna Trust.

Firstly the program was very informative and helped professionals like us to see the social side of the country also the work being done by specific institutions and individuals. This had definitely made me more socio-conscious. My only concern is regarding the time if the program would have started on time some speakers in second half could have explained more. Please take care about it in future - **S Raja Karthik, Through Mera Events.**

I am glad to learn that the abhaya Foundation is organizing a CSR Seminar on 8th November, 2014 at Bangalore and bringing out its official magazine. Mr. Balachandra, Founder of Abhaya Foundation has devoted his life to a cause that is extremely relevant to entire mankind. I salute his determined efforts. I would like to congratulate the office bearers of abhaya Foundation by whose strenuous efforts, Bangalore would be witnessing an amazing event on CSR which would inspire hundreds, which in turn would kindle light for thousands. I believe that with great potential and strong will only this kind of activities can move on. I wish the program a grand success. - **B S Gupta, Director. HEARTY CONGRATULATIONS! abhaya Foundation, for one more success story. It is expected this way only, when it takes up a project / assignment. Keep it up!! - **EJP Prasad, Coordinator, abhaya RPL.**

Greetings from Guru Puraskar Foundation. Thanks to abhaya Foundation and your team, we had an interesting seminar on CSR at Le Meridian on 8th instant. Our grateful thanks to you for publishing an article on Guru Puraskar in the souvenir you brought out on the occasion. We request you to put us across to some people and organizations who would find it useful to collaborate in our work in Education. We would be pleased to associate with your work/service. Jai Guru Dev! - **Anish Kumar C.J, Advocate & Creator of GOPI Formula (Managing Trustee, Guru Puraskar Foundation)**

Our regular Donor and hunt the winter participant Abhayan beloved CS Dushynath Kumar K (Guntakal) has donated Rs.15,000 and entire his office is going to participate in the seminar (2 CS and 3 students). I request you if possible place his details at cover page of hand book.

CS Ramesh Kumar Bhat does not want to get the name published. But he is a regular donor and participant of hunt the winter. He is instrumental in getting the Rs.10,000/- from Sri Balaji Enterprises (Ad). This time he gave Rs.3500 for himself. He made 3 of his CS colleagues, 3 students to participate. He has circulated in his firm and recommended them to participate. He also connected and personally visited with 3 NGOs. He is also running NGO in the memory of his father and mother. - **CS G Thirupal, Trustee, Bengaluru**

Good efforts and were impressed with Mr. Balachandar's and the self-less initiatives. Ms. Neeta Revankar, CFO of Sasken made a personal contribution of Rs. 21000/- to abhayaFoundaion at the venue. - **Rajshekar & Aarthi, Sasken Group, Bengaluru**

It was a diff kind of experience being in this group. Enthusiasm to make it happen was high and the results showed. Best wishes for future work. Euphoria of the success of the Bengaluru CSR seminar must have died down by now. I am sure you are back to your abhaya work with increased enthusiasm and zeal. A couple of things I wanted to share with you:

Apart from this, there was mixed reaction / feedback for the program. It is always the case with some saying there was very little of subject takeaway and some others saying we were inspired. As organizers feedback is important. I am sharing it with you specifically since you wanted to repeat the format in other cities. If you are targeting our members, do budget more time for professional interaction and higher level of topics.

While the program was a launch pad for abhaya activities in Bengaluru, you will agree that you were leveraging on the brand of FKCCI and ICSI. That being the case, it would have been better had you toned talking about abhaya especially when the time was short and at the cost of speakers' time and cutting down on audience interaction. In any case your work speaks for itself. Again I am telling this since we have done many joint programs and no single organization is allowed to garner more time for itself. It will help if you keep this in mind in your next collaborative programs in other cities.

I hope you take this in the right spirit of a professional to professional feedback for improvement in future programs. - **CS S.C.Sharada, Chairperson, Bengaluru Chapter of ICSI (Program Coordinator)**

CSR Seminar which was conducted on 8th Nov 2014 at Le Meridian Hotel, Bangalore was really amazing and all the participants were delighted. The team and the Founder is so passionate to serve the society by sacrificing their personal comforts in life. In fact our Rotary District Asst Governor Mr Haran was also present along with other Rotarians on that day. He is very keen to work with abhaya Foundation for future projects. He mentioned about the Founder many times in our meetings as to how the Founder and his team organized the event & also planning to invite the Founder for one of the big events of Rotary. We are all very fortunate, blessed & very proud to be part of your team. - **Srihari R, Founder Partner, SVS Credit (A Team Member of CSR Seminar), Bengaluru**

It was a great experience, being part of the Seminar. It was a very successful event under Your Meticulous and Timely planning , meeting all the objectives including connecting many New and Great Personalities to abhaya, Funds Mobilization for social cause with initiation to implementation. Hope will be fortunate enough to be part of Abhaya Foundation in propagating the cause in future too. Wishing Almighty be with you all the times and make The World a better place to live for Mankind and all Living Beings. -**Rama Krishna, SVS Credits, Bengaluru (A Team Member of CSR Seminar)**

It is collective efforts of all teams i.e FKCCI, ICSI – Bangalore Chapter and abhaya. Hearty congratulations to each one of the team members. Once again we have proved that, together we can do wonders. All the people who are associated with the event, be it sponsors, delegates, speakers are very much impressed and happy for the arrangements made and the way it has been conducted.

Further, the main objective of the Bangalore seminar is to identify NGOs in Karnataka, who are doing excellent service to mankind. Not supported by any big organizations and are in need of basic infrastructure. Hence, am of the opinion that we should stick to this objective and march ahead. As it was communicated to all our associates, It is not advisable to dilute this concept. We have created huge presence in Bangalore and must create goodwill and earn confidence. – **CA S N Rangaiah, Founder Trustee, Bengaluru**

CSR (Corporate Social Responsibility) Seminar was held on 8/11/2014 at Bangalore. It was my second seminar of Abhaya after the Seminar on Leadership Skills by Balachandra sir on the June month at Abhaya home of happiness. CSR is one of the best summit to provoke the Corporate Society to take initiative for the development of the Nation. The seminar let everyone to know about what are the different areas that the Corporate must contribute based on "CSR Act of 2013". Areas like Educational development, Rural Development, Agriculture, Making the environment clean etc. It was stated that all Corporate must at least contribute 1 to 2% of their profit for the benefit of the Society. The speech by Auto Raju sir made everyone awestricken especially the line by him "When a 3rd standard fellow can do this much how big the well-educated fellows can do" is a very valuable statement. As said by Balachandra sir it must be Citizen Social Responsibility rather than giving it to the hands of Corporate. So every citizen must know their responsibility and act accordingly. This is the only path to "live after death". Thanks for such an wonderful seminar – **Govindarajan, IV B.Tech Student, Chennai**

It is another excellent experience with abhaya as a volunteer. By listening words from various personalities who achieved great positions in their life, always great lessons to young people like me to achieve miracles in life. As I am in corporate world, I have to know as to how corporate responsible for social service, this seminar explained me to great extent. I like one statement-CSR is not only Corporate Social Responsibility, it is Citizen Social Responsibility, yes definitely it is responsibility of every citizen to do their bit to society. In fact every event or moment with abhaya giving me a great memory in my life. Thanks to abhaya for giving this opportunity to do bit from my side. – **T Karthik, Volunteer, abhaya, Hyderabad**

Just want to share few things regarding the recent CSR seminar conducted at Bangalore. Please consider this is my honest feedback. Over all Seminar went very well and I enjoyed lot till the last session, one of the most memorable day for me. I request you to consider these points for our next CSR seminars. 1) We need to gather more number of CSR and NGO teams to be part of the movement. 2) Time for the guest speakers should be minimal and more time for interaction needed and 3) If possible we can even include research scholars to address meeting on serious issues which our country is facing the issues (Ex: Corruption, It will be really help full to the Nation building if any corporate come forward to develop software tools like compliant mechanism applications). – **I Lakshmi Narasimha, CSR Team, CSC, Hyderabad**

Congrats to one and all in the group. I feel the event is totally successful. Let all of us pledge to continue this spirit of good and GOD's work. – **Satish Kumar & Sudha**

As informed to abhaya Team, I have done best to my level to the requirements as advised except that I could not bring my sister because of her health and age. Then what happened you and I know and we are extremely happy to note:

- I was introduced by Sir to his team before inauguration;
- Kids were fondly and as usual welcomed by the Founder in person;
- They enjoyed food, of course, with little fear and innocence and had darshan of Bangalore and a star hotel!
- As promised, you have immediately reimbursed their expenses amidst your tight schedule;
- Seva warden with kids were called to Dias and Sir briefed on Sevalayam by referring me for my first appeal for Rs.100 and finally informing the audience about collection by teams of Sevalayam & abhayans both cash and in kind close to 2 lacs;

Founder stated when informed us about the seminar that: "If you have no time... I cant help. Dont expect GOD to come to sevalayam every day"

But I tell you, God has come all along from Hyderabad to Madurai in May 14 and already helped Sevalayam not only with money and Solar lamps but also with more ideas and motivation! That is more than enough, Sir!

My Sister has already done a lot with mobilization of several lakhs from her own contacts as you are aware from the folder we gave on your visit and even after the said visit she had completed many other tasks referred in it as updated in FB and also she continues her endeavor for sevalayam children even after attaining her age of 60 in her own way!

I salute the Founder, CS Balachandra Sunku for his leadership and his hard work for the social cause. I could see lots of beneficiaries of abhayans. In the Seminar. I liked his shifting the "thanking for the donors" to inaugural session from valedictory one. I wish and pray for long and healthy life to all abhayans. I was speechless like others when auto Raju was brought on Dias which is absolutely perfect for this Seminar for CSR. All arrangements were very good and the credit goes to Sir with his rich experience and his team which includes U. Delegate fee was

carefully fixed with 80G to bring more money and the Success. A leader is Leader, again I realize. I was about to say if I was given a chance to brief on sevalayam the following:...which was wrote by someone:

We wish to catch the stars in the sky but what we get are the bars of a window. But bala Sir is catching stars easily because of his able leadership! - **CS S. Nakkiran, Bangalore, 80955 88223**

I am very proud to be part of abhaya, thanks a lot for love and concern always shown to me and my family. I am always indebted to abhaya for many reasons. Thanks a lot for the great opportunity provided to me.

Bangalore Inspire was a grand success to bring the Corporates, Professionals and NGOs in one platform as first of its kinds. The positives are 1. FKCCI and ICSI joining with abhaya, 2. Selection of Speakers made us to reach quality audience. 3. Planning and leveraging technology was excellent and Intelligently handled.

Some of the negatives are 1. Registration counters and welcoming the delegates could have been planned precisely. Bez, First impression always the best impression. 2. We need to identify a hall to accommodate around 250 people, if it is OK if less luxurious than a five star hotel, in order to reduce the cost substantially.

Overall its a great feeling of satisfaction, as it ended with a grand success. I do not think that the surplus fund collected at

Bangalore should spent at Bangalore only, the most important purpose is that, it should reach the people who are in great need and which support abhaya to reach in other states as well. It is my personal opinion, you may ignore if thought is irrelevant. Again thanks a lot for the great opportunity to all abhayans. Cheers for abhayans. - **CS Manjunbath Hegde, Company Secretary, Britannia Group, Bengaluru**

Dear Sri Balachandra,

At the outset would like to thank Rtn. Sri. Srihari, who was kind enough to extend an invitation to this wonderful seminar. If had not accepted the invitation would have missed a greatest opportunity in my life, not because would have missed to hear about the CSR legal provisions but the eminent personalities who spoke and the various good people who is doing God's work.

Oh, what a personality Sri Balachandra, really great who can keep the audience spell bound by that attractive voice and the inspiring speech which made everyone present to think about themselves as to what they are doing to the Society. How these people realised the purpose of their creation in this world and how they have taken upon themselves to help the poor and needy and also identify and nurture the talents.

A day well spent, listening to eminent personalities to name a few, Justice Venkatachalaiah, Sri G M Rao, Sri S Sampath Raman, Sri I S Prasad, Sri Raghu Babu, Sri N Suresh, Mrs Sharada, Sri GhanshyamDass, Sri R Sridharan, Sri Surojit Bose, Great but Simple personality Sri MedaNarasimhalu and ofcourse Sri Balachandra who not only inspired by the speech but also conducted the meeting smoothly, in a dignified fashion. Really learnt a lot.

A Special Namaskaram to you to have introduced Sri Raju, at this august gathering and made him a dignitary on the stage, not for the qualification or the position enjoyed but all were equal in the sense that they were all kind and good Human beings, having concern to the Society and the fellow beings.

Have attended other seminars on CSR with full day presentation on the subject. But, this one, from initiation to implementation, was unique and we could see to ourselves clearly what is Social Responsibility and as a Rotarian could relate lot of things and appreciate the great efforts behind these kind of achievements which ultimately gives satisfaction and accomplishment when we see the smile in the face of the beneficiaries.

What an amount of selfless sacrifice!! Hats off to everyone, who are none other than God's representatives. Balachandra Sir, words cannot express the feelings and wish you all the Best in serving the Humanity.

We know you are very busy and every minute counts in your divine work, but request you to spare your valuable time to visit our Rotary , if possible in one of our family meetings, may be at our next family meeting on 28th of November, at Hockey Club, Shanthinagar. Requested Srihari to invite you.

Later, whenever it is convenient you may kindly request, Sri Raju, on our behalf, to make his power point presentation to our Rotarians, in a family meet. Looking forward to meet you in our Rotary - **P C P Haran**

The way you conducted the seminar is amazing even people with vast experience may not conduct the seminar in such a way as you conducted... its possible only due to one reason that you are doing all this with whole heartedly. We pray the almighty god our baba to give more strength and good health for all abhayans to do more good work. I observe that there is no selfishness on the part of abhaya and no one expecting any rewards and awards but I am sure that god has all your account.- **KN Narasimha Murthy, Wellwisher, Bengaluru**

I was overwhelmed by the stupendous response to Abaha foundations conference on CSR last Saturday. It was indeed heartening to listen to speakers of the likes of GMR garu, Mr Senapati of WIPRO, Honorable Justice Chelliahppah and Auto Raju – who are people with hands on experience in serving society. It was indeed an honour to be part of this great initiative and I thank Abhaya foundation for the opportunity to attend and speak. - **Surojit Bose, Director, Climate Change & Sustainability Services**

Most of the delegates have confirmed that they are very much impressed on the initiatives taken by abhaya team on CSR activities at Bangalore. abhaya team has really worked hard to bring corporates, professionals and NGOs on one platform. Even the corporate sponsors have praised on the selection of the speakers and venue. There is a talk that no other NGO has taken such an initiative to promoter other needy

NGOs. In my personal view that the registration counters and welcoming delegates could have been handled in a better manner. To be precise the event was a great success and we all together could achieve the objective. - **CA SNRangaiah, Founder Trustee, Bengaluru**

It is very big and beautiful event. I am so happy to participate in that. I never forget this event in my life. E event lo nenu nerchukunadi samajaseva ela cheyali evarikosamo eduruchudatamkadu manaku manam mundadugu veyali. And next auto raju anna chesthunatuvanti seva its amazing. Raju annaki salute. - **S. Vinod Kumar, Somandevpally, Healthcare Beneficiary**

I have learned so many things from the trip to Blore CSR Seminar from Hyderabad. Firstly I have learnt so many things from Sreedhar, Coordinator abhaya as to how to handle the situations and from volunteers over there. They are all CS students...very cheerful. i don't even know their language but I have mingled with them. I got to know many new things during this first long trip with abhaya team and all the members have given good support for us and i can be able to feel what is meant by transformation by seeing my self at sometime. i can't even communicate but now i am confident and able to communicate well. I am learning so many things from each trip. Proud to be an abhayan. - **Gopi Manohar, Volunteer**

This CSR seminar was a great experience. It was a good learning on many aspects like team work , leadership and dedication. Also realized how difficult it is to mobilize funds for a good cause. Thanks for the opportunity provided. This kind of work needs a lot of dedication and self motivation. Balachandra garu and Tirupal garu have been big inspiration. May the good work go on. Jai Hind - **N. Shashidhar, Brand Manager, Blore**

CSR should be part of corporate culture, says Suresh Senapaty

CSR spend set to grow
According to a study in 2017, companies spent \$2 billion on CSR activities. But now it has reached \$4.7 billion. This shows that the spend will grow further, he said.

CSRs should be part of corporate culture
According to Senapaty, the structure of giving out for CSR activities should be internalized by companies instead of being seen as a show of the company's financial part of research coming in the hands of a few corporate executives.

Mission Akshara

Little kid Akshara reached God's adobe on Sunday. Abhayan at Sweedan Vijay Krishna, brought this case to abhaya and we suggested the parents to meet Doctor at NTR Cancer Hospital. Doctors after check up told that she cannot sustain even after operation. So the parents took her back to their village. - **abhaya Team**

Mission Basavaraj K

I We, Abhaya Foundation, request you to spare a little bit of your time to read the about Basavaraj, who is in deep Crisis-

Basavaraj K Bommanakatti from Ranebennur is suffering from severe acute Pancreatitis from the past 11 months fighting for his life. To inform you, that he is doing M.Tech, final year (BVB college, Hubli), a lone graduate from his family of farmers. His parents have already spent over 10 lacs at different hospitals in Bangalore

and in Manipal. His father has already sold the entire property to keep his son breathing. He is taking him to various hospitals for treatment, from the past 1year. The kind of pain they are undergoing is unimaginable.

Now, by God's grace, finally they found a specialist in Manipal Hospital Bangalore, who would take the proceedings at this critical condition. The major operation was held on 3rd & 4th November and the estimated cost of surgery and treatment is 4lac Rupees. Out of which 1.2 lac was paid yesterday. His parents became helpless.

We are trying to reach as many good hearts as possible who could help him breathe further. We, at abhaya Foundation along with Mr IS Prasad have already pooled in 40k.

So I kindly request you to lend a helping hand in support to Basavaraj & his family, by any way possible from your side, either through recognizing Donors or by cost negotiations with Manipal Doctors or by sparing your valuable time to spread the news or by any way you think might be of help.

To remind you, the entire family of 5 members is depending on Basavraj, and he is in the Final year of M.Tech, if our small gesture can help, save his life, which in turn help him to serve his family and might be in future he can reciprocate the same to us. After all human beings only can help each other.

I am not asking to spend an entire salary of yours, neither am I doing it personally as we all have responsibilities. What I am trying to convey is that instead of watching a new movie this month, let's take a part in trying to give a new life to Basavaraj, with the residual amount we have.

We would be meeting Dr.Nagaraj Palankar to find a way out and cost reduction on Saturday, 15th November,2014.Request you to join us if you can.

He is in need of love, care, prayers along with money. We have a target to pool 2 lakhs, apart from standing beside him morally, till they come out of this crisis. Please do your bit.Small drops of water will make a Big Ocean. - **CS Manjunath Hegde, (9620039398, Bengaluru**

Educare Update

I had successfully completed my Navy interview. I reached one-on-one interview after clearing rounds of Group discussion and Technical interview. The result for one-on-one will be announced on December month. Hoping for good result. If the result is positive I have to undergo SSB training for physical fitness and after that I'll be recruited into Indian Navy. So only two more steps for me enter into it. Need your blessing and support. Thank you Bala sir and Abhaya

With God's grace and Abhaya's timely help I have completed my Ethical Hacking course with A grade which is the highest grade. I'm happy to share this happiness with Abhaya.

I need to write CEH exam of EC-Council which will give me International certification for Ethical Hacking. There are lots of openings with good package in and around India for CEH (EC-Council Certified Ethical Hackers) which is globally accepted Council for network security.

As I have good exposure and interest in Ethical hacking it will be the correct time for me to take this exam. Big companies have started recruiting from campus. But unfortunately none of the big companies are coming to colleges for campus instead they are conducting pooled Campus and Off-campus. I'm attending job fairs and interviews wherever it is possible. I had cleared the Aptitude round and shortlisted for next round for a

company called Lucid Technologies for the package of 3.75 LPA (Lakhs per annum). At this juncture, taking this exam would definitely add value to my profile. It will be also helpful for me to excel in Indian Navy if I'm selected in the final interview. The actual Exam fee is \$600 U.S.D. (U.S. Dollar) but if I write this exam before the end of this December it will cost Rs. 32,500 (Indian Rupees). It is a one time examination and I'm supposed to score the maximum possible.

Before starting my final year project I could concentrate well and score more marks. I could arrange only 7,500 rupees from savings and by other means. I'm in need of the remaining amount of Rs. 25,000. I don't know what to do. I'll be obliged if Abhaya helps me in this crucial time. I know it is not a small amount but this opportunity and time will not come again. I am requesting Abhaya knowing very well coz without Abhaya I can't even imagine to continue my engineering. It will be more helpful if Abhaya help me to accomplish my ambition and have a good career in life. - **Govindarajan Raman, IV B. Tech, Chennai**

I am going to college regularly and actively taking part in college curriculum. I am doing case studies and records. Participated in Swach Bharath program in our college. Also had a chance to participate in youth festival and being selected to Dist. Level competitions (Essay writing). I am responding positively in class room. I attended the seminar for the ICT subject. In my class my position is out of 40 I am 15th place - **Md. Arifuddin, (B.Ed) Kalwakurthy**

Firstly very sorry for not sending my reports to abhaya. Last month I was very sick. I had stomach ache due to acidity problem for two weeks. I was very weak so i couldn't send my reports last month. This month since 10 days we had internals and lab internals so i couldn't send my reports. This is the reason why i did not send my reports. I did not do this intentionally.

Last month as I was not feeling well my mother did not allow me to go for a part time job because Pola hotel is 3km far from home. I told about my condition to Vikram sir. He told me to meet after external lab exams. Tomorrow is the last working day of our college for this sem. My internal marks are 141 out of 150. My external lab exams r on 22nd & 23rd of this month. On Monday I will meet Vikram sir. On 22nd September, I got an opportunity to serve Sri Satya sai seva samithi as its Youth Coordinator Since last 2 months on the occasion of Baba's birthday there was an arrangement of bhajans for 89 days in devotee's houses each day. I attended bhajans and sevas whenever I had a chance. And in college I had taken a charge of Volunteer along with 4 girls for campus. When companies come to our college, we should take the responsibilities & take care of the people & serve them.

My external theory exams r from 9th Dec to 30th Dec. We have 15 days as study holidays. I'll work hard and try to stand 1st in the class. From next month I'll surely send u my reports on 7th without fail. - **Sharmila Venkatesh, II B. Tech, Bellary**

I am fine here by the ever showering blessings of abhaya & leading gorgeous, wonderful professional life. Our second year classes were started from October 6th onwards. According to the schedule I have been posted to medicine department. There our work is to write the case sheets by examining the patients. Still we are in process of learning how to present a case sheet. In this we will put many, many questions to the patient in order to conclude that the disease is regarding about particular system and to know probable cause. First only they will be weak, by answering our questions still they will feel discomfort. But patients are our real books where we will get complete idea about complications in the impaired functioning of an organ. At that time some patients will hold my hand & they will be moaning by saying their problems. They will ask me to prescribe something which makes them to feel a state of well being. I was so moved by them. Many cases we will be watching like the patients suffering from cardiac problems persons suffering from paralysis, suicide attempt TB cases, and still different variety cases.

Though I may not treat, by the end of these three months I will be surely able to diagnose. I feel blessed to enter into this profession.

Some times during evening special classes will be there just for training purpose. As still I didn't buy books, after college I needed to spend some of my time in library & I prefer to e-learning centre whenever I have doubt in the cases which I come across in hospital & it is free of cost, established recently in our college. In home I will be revising first year syllabus (physiological conditions) comparing with pathological conditions.

Participated in medical camps & in under taking balavikas classes. Participated in SWATCH BHARATH where we all members involved in service activity, in bringing awareness about cleanliness around hospital & college. Thoroughly enjoyed Fresher's day with skits, dances performed by juniors. Wrote an article on Thyroid Gland. Really by seeing sufferings of the people in the hospital, my mind will be feeling to do a part for the betterment of our fellow beings, thus uplifting me to reach my ambition. - **K. Sailatha, MBBS 2nd year, Govt Medical College, Anantapur**

During the month of October, 2014, I was busy preparing for exams and have attempted very well. Please find attached herewith my Mark Sheet for your immediate perusal. These days I have Practical Classes in both Physics & Chemistry and these marks will get added to my Final Year Results. I am working hard to achieve the desired results and participate in the forthcoming Engineering Entrance Exams scheduled in the month of April, 2015. Post my college hours apart from my studies, I have started taking Tuition for students from Class LKG to X-Std as part of my hobby (imparting good education to the needy and the poor). This helps me in learning new

things or recollect the past period of my educational career and also an income to purchase the study material that is required without depending on my parents. Although my parents are struggling hard and helping me to prosper in my studies, I want to be self-reliant. When it comes to the festival occasion the recent 'Deepawali' went on very well close relative and friends were invited in lighting lamps and bursting crackers. It was so wonderful atmosphere with full of happiness all over, I really enjoyed the occasion. Nothing much to say, will reply you back in the coming month on my progress, thanks. - **S.Srivalli.**

I am venugopal reddy sir first a fall I am very sorry sir for late reply and not informed to abhaya what I am doing in this month. After your decision and approval we will start the work of construction of compound wall the name of Artesian as the neighbor of the sight owner relative was creating so many problems . Awareness Update

The purpose of doing the show was to connect the abhaya good work to the known circle. When they asked for the children programme on 14.11.2014 at Kendriya Vihar phase 2, Gachibouli. They said it is the gated community with 170 flats consisting of families most of them are either working in IT or central government. I took this opportunity to connect with the children and their families.

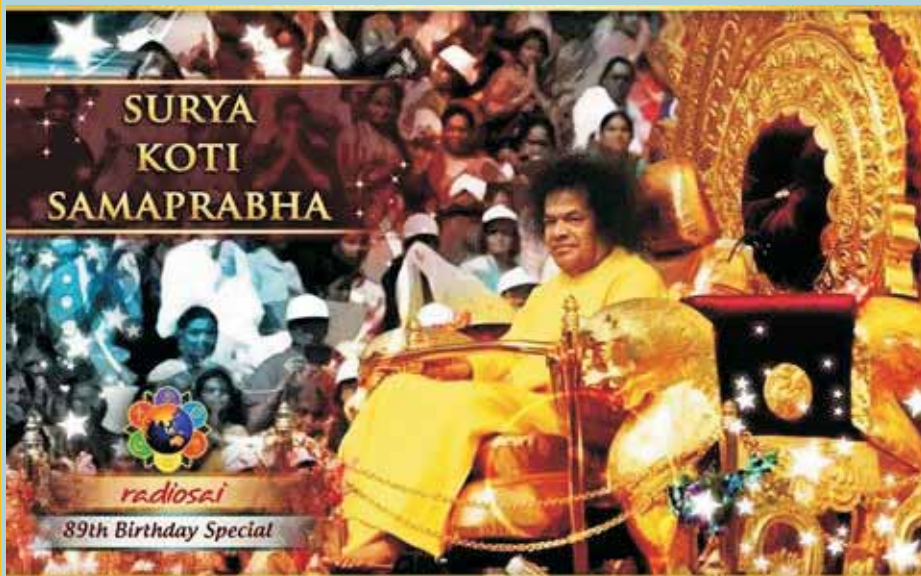

I had tough time handling the children. They were happy exited. There were more than 200 people gathered. People actively participated in the auction. I could generate Rs.500/-. The president of the organisation promised for some more support. I am trying to connect with Mrs. Murthy president.

Trying to set this as abhaya permanent venue for every year auctioning with in this gated community. – **CS Santosh, abhayan**

Rural Development Update

Founder visited Nagarkurnool MB Nagar dist... to see the Community Hall constructed by Dr CN Reddy... planning to provide needed thoughts for the good work.

Today there is a photo of Venkatesh with his parents in Eenadu supplement who approached the Govt of Telangana for help. I am enclosing the photo with matter, which is self explanatory. He also rang up and informed that one of the Ministers, Mr.K.T.Ramarao, has promised to take up his case and see that an artificial hand is given to him, free of cost, shortly. In the report it is stated that he does not have a leg and two hands (the photo also confirms this).

I asked him why he did not wear the artificial leg provided by Endolite India, for which he replied that he was advised not to wear it to get help from the Govt, now. He also requested the Minister for a Govt., job, it seems. One of his autos is stranded at home for repairs / driver, but the other one is in use, he reported. I asked him about his contribution to abhaya in recent times for which he stated that due to his mother's / self illness they could not send but would try to send some amount in due course. – **EJP Prasad, Coordinator, abhaya RPL**

Transformation Update

Founder addressed tribal youth from Vizag Agency Villages @ Prashanthi Nilayam

Sai Youth from Vizag working on Agency Villages since 7 years. Swamy blessed them and directed to give water for those living in hilly regions. The youth with single point devotion started with 3 hamlets... using natural springs given water in pipelines for 103 hamlets. About 350 tribal youth reached Parthi to express their gratitude to Baba... the thrilling experience is for me... though not in any way connected to this story line. I was just going to reservation counter... enrooted Mandir... Murthy and Ganesh team just spotted me in the crowd. .. Screaming sairam... They said... it was only few hrs ago... they just thought of me for speaking to these tribal youth. Unaware of my visit... they just wished... Swamy made me to wish them on the road... Listening to their wish... I was overwhelmed! As since morning only out side I was speaking. In side mandir... nothing. It was very thrilling divine experience for me to receive their hearty invitation. 8PM to 1030PM... it was just empowerment....Motivation. ..inspiration for the youth in the name of Sai... this incident is purely HIS Grace... love you Swamy...

సేవాధర్మం

సేవ- మంచి మాట గొప్ప భావం సేవదేసే అభ్యుత్సాహం మంచుమండికి వస్తుంది లోకంలో లాభామంది సేవ నేయించుకోవాలో భాగ్యం ముందుకొచ్చి సేవ చేసేవాళ్ళ తప్పుడు అభిమతి దేవాలం వేళ్ళుచే లెక్కపెట్టవచ్చు.

ఈ ప్రపంచం సేవ చేసేవాళ్ళతోనే గుండీ పోతే మిగతా వాళ్ళుంటుంది అప్పుడు లోకం పక్కగా పోయిగా, అధ్యులుగా ఉంటుంది.

సేవారంబునకి సేవించండి... ఆ అవకాశం వస్తుందా? లాభాలి కావాలి చెబుతుంది.

సేవదేసే భాగ్యం గొప్పదని చెప్పబడుతుంది అలాగే గొప్పదని అందరూ తెలుసుకోవాలి.

ఒకరికోసం సాయపడటం కోసం మానవ దర్శనం. అలా సేవ చెయ్యడానికి వ్యక్తకాలిన్య.

దయవల్లన పని లేదు. పెద్ద పెద్ద పరిశ్రమల కార్యవర్గాలెదురు సహాయం కావాలి అనే మాట వినిపించే కోణాలు, తెలుతో అలోచన లేకుండా తక్షణం వెళ్ళాలి.

సేవలో లేనిదేని దివ్యబుద్ధిగా, అరు క్షుణ్ణిగా అని భయపడుతుంటారు. అలా భయపడుతుంటే ఉండే సేవ కాదు కదా, కోసం ఒక్క అడుగునా ముందుకు వెళ్ళుకోకుండా మరణం, వైర్యం జీవితం ముగిసి పోతాయి. జీవితంలో నిజాయితీగా ఉండాలి. సమాజానికి ఉపయోగపడాలి. ఆ అవకాశం కోసం ఎదురుచూడాలి.

మానవసేవ మానవసేవ అన్నాడు. ఈ మానవసేవ అ మానవసేవ అన్న సులువైన ఒక పట్టాన అంటున్నట్లుంది. నిత్యమూ నిరాశం పరంగా సేవ చేస్తుంటే తప్పు అందరిలోని అంతరార్థం బోధపడుతుంది.
