Mission Sachina... her mother again carrying!!

Sachina was admitted in the hospital last month and her condition was critical. Her parents could somehow took care of the situation and she is now recovering. Abhaya well wisher Lalitha, Vizag visited abhaya team and requested to continue monthly support to them for few more months. The concerning point is that though the parents are being cautioned about next child, they did not understand and Sushma is now carrying!!! Abhaya really did not understand how they take care of the growing family needs now with such developments.

Can Manga alone care the special kids?

Manga brought 2 of her little daughters Sirisha (16) and Divya(13) to abhaya. They are from a lower middle class family residing at Lungar House, Hyderabad. These 2 special kids whose disability could not be recognized by the family members at the young age. They are presently not in a position to speak, walk and even stand properly. Their parents consulted many doctors within their reach, but they are not in a position to bare the expenses as the family is sustained by only single income of the husband, who is a driver.

Abhaya considering their hopeless condition, suggested them to visit Sweekar - Upakar, the specialist hospital for such special kids. Doctors after initial check up, preliminary tests suggested to get trained at their special school for a period of one year and also prescribed medicines. Abhaya readily supported them to buy medicines for two months and consulted the Principal of the school, she reduced the Fee from Rs.16000/- to Rs.8000/- for two months. Abhaya paid the fee and admitted the girls in the school. This case is being closely monitored and in case if further help is needed post 2 months, the same would be given to them based on the need.

An appeal to those who wish to seek help on behalf of the needy!!!

Greetings and salute you for the heart you had for the lesser privileged. Believe us this is how good work happens in this country silently. abhaya would stand besides you while you do work for those who are in need. As of date we have about scores of critical cases and each of which needs huge resources and time.

abhaya being very small in size, it always try to encourage the people who bring such cases to volunteer and lead their cases from front... what is needed is that: kind heart and strong will to pursue... this is enough to conquer the world around.

Following general action points invariably are followed in each of the cases and these are all the steps the Volunteer who brought the case to the Foundation seeking the financial assistance. Then it would be very easy to bring a meaningful conclusion for the Mission:

- We need to interview the seeker of help along with the family members about situation.
- Capture a short interview/ impressions of the needy in video
- Look at the similar interviews posted at abhaya gallery before shooting.
- Capture photos, collect Doctors estimate, present status, funds position, time available.
- Share your photos and contact details... stating how you connected to abhaya.

- Abhaya would provide initial/immediate financial assistance in a phased manner.
- Simultaneously Abhaya publish an e appeal.
- This would be further sent to Abhaya well wishers by email
- Appeal would also posted in blog, FB, Twitter etc.,
- The Volunteer to share appeal with his contacts and identify at least 5 donors.
- All the donations to be routed through Abhaya as they are exempted under 80G of IT Act.
- abhaya can also receive Foreign Contributions and it has FCRA Approval.
- Volunteers must approach electronic/print media, fm radio etc., from abhaya.
- More is the amount needed...much is the effort needed.
- Volunteer must educate the family who is seeking help to approach MLA/MP/ CM,/Governor.
- Volunteer to sit with the affected family and understand if they can connect to positive people seeking possible help in their own circle.
- Volunteer to contact HR Heads of various IT Companies with abhaya appeal so that many IT professionals would extend help.
- Volunteer to have kind heart and strong will...
- Abhaya would provide all that is needed to do the above for those Volunteers who wish to lead.
- If the Volunteer is ready to lead... then they can visit abhaya during the week end.
- Once Abhaya take up the Mission then Volunteer must act as single point of contact till the end.
- The Volunteer must update about the progress and provide all the bills for amount spent.
- If the above is not possible... then it would be difficult to provide help to the needy.
- In that case let Volunteer start praying for the recovery of the needy by providing one time help which would be normally be sanctioned on merits of the cases if the help brings in life for the needy.

“HEART” Rural Infra Update

Ramesh and brothers doing well:

Ramesh is regularly going to Mobile repairing classes and there is a vibration in his face and speech. Now we are very much confident and providing the fares for his daily transport to institute. He is visiting us once in two weeks to collect bus charges and in constant touch with abhaya.

His brothers, Ramachandra and Ramesh improved a lot at Vivekananda vidya vikasa Kendra, LB Nagar. Abhaya pleased to note that these two brothers are in top 3 in their classes and picking things fast. The hostel management also taking good care of these children and we thank them in this regard.

His mother also recovered well with regular medicines provided by abhaya and she got confidence in her voice now. Entire family has been uplifted by the foundation and we hope they will all set soon.

abhaya HUNT THE WINTER

We have 120 crore population in the country. Latest stats shows that 50% of them do not have access to basic amenities like food, shelter, education etc., in the country.

We all know during Winter we take out Warm Clothes, Rugs, Thick Blankets, Monkey Caps, Shawls, Room Heaters etc., some times, we even bring new ones for our comfort during the season..to fight the weather. Every winter, hundreds of people die on streets fighting cold weather.

As part of its mission to spread care & love for the Community around...abhaya decided to take up "Hunt the Winter" Project every year with a mission to provide 1000 blankets to the most needy people in the streets, orphanages, villages across the state. This may cost about Rs.1,50,000/- each year.

If you are one among those kind hearted people in the society who think that, we can do some good work...then abhaya welcomes you to be part of this service project.

How to identify the right beneficiary:

If one wishes to identify the people who are in need, requires their eyes and ears to be open to the society. Then the need would be understood by the heart.

Join "abhaya Hunt the Winter"
Volunteer to distribute to destitute on roads
Mail to abhaya@abhayafoundation.org...
Pool little resources for the movement

You can contribute for this mission...with Rs. 100/- per blanket...
which may be less than the cost of

**a good lunch@ hotel... movie ticket on a week end...
2 cigarette boxes... 2 burgers enjoyed with a friend...or
browsing net for an hour for a week...**

Few instances where you find the needy in and around us are as follows:

For example if we are in Bangalore and drive in posh areas such as Jayanagar, Indiranagar, Koramangla etc., we will only find goorkhas and Doberman dogs but not poor people sleeping on the roads! Hence we need to go to outskirts during the nights where the need is imperative like slums/temples/bus stands/railway stations/orphanages etc.,

So let us go out during the night after 10.30PM in a 2/4 wheelers (let it be slow drive with family/friends) let us observe around in all directions. Sure we notice many people who do not have proper

cover on them sleeping on road sides, slums, bus shelters, bus stands, railway stations, market areas. Just identify the needy and silently go and cover them with a blanket...not even disturbing them from their sleep. This would be possible all across the city.

Only thing is that we need to be little patient as if we are going to see Lord Venkateswara of Thirumala!

Where to look around..

- **Identify the needy in and around our homes:**
- **Constructions sites:** Tents of labour with small kids working day and night. Most of them would not have any warm clothing.
- **Maid servants in our own home:** May not have proper blankets, enquire casually and understand the need.
- **Night watch men working at offices, schools, residences:**
- **Rickshaw pullers/coolies/ labour etc:** Who cannot

afford a blanket for every member of their family!

- **Identify orphanages/old age homes** and after thorough enquiry and observation we can give the blankets to all the inmates.
- **If we wish to help those people in the villages:** Then we can plan to go little beyond city...then every villager is in need.

How to identify the team for distribution and what kinds of logistics are involved:

Whoever is ready to volunteer for the distribution may join the team. We will give responsibility to one in the team of 4 people in that area. The distribution can be easily done by each family/team. Probable process of Hunt the winter would be as follows:

- There must be a brief meeting with the family/friends in regard to Hunt the Winter.
- If everyone is game: then think about how each one of them can be part of this Mission.
- Estimate the need and places to cover after observing for a week or so before actual distribution.

- Calculate probable number of blankets that can be distributed by each family.
- The mission to be shared with all the friends, neighbors, pals etc., if someone interested, they would join with their resources.
- See what the family can pool for blankets from their own savings...if there is a deficit, family head would provide the rest.
- If there is still deficit, abhaya would be supporting the rest.
- Block Saturday nights every week during the winter months (Sundays not preferred as the late night activity may affect next working day).
- Start in your car after 10.30PM...be on mission pray fully.
- If there is no car, then it would happen in 2 wheelers with 2 youngsters along with 6 blankets.
- If there is a space in the car, motivate 2 others to join your family/team.
- This would give a great satisfaction in working for the people who are in need.

Don't forget the following too:

- Capture the images when you give blankets.
- Share your experiences with abhaya for spreading them further to motivate.
- Post these things in blogs, face book, emails...then it would become a movement
- Share this with those who don't have access to net at homes with parents, spouses, friends...
- Thank god who had given us such a wonderful opportunity!

If we do this winter would be hunted out of our cities. Service is not an opportunity to help someone...service is an opportunity to transform ourselves in that process. Let the pain in our heart be relieved by doing such work for those who are in need.

Together Everyone Achieve Miracles

HSS may take 3 to 6 months to get back with a plan on contributions for abhaya's initiatives. Last I heard was they are still planning on a plan for getting with abhaya. The process is that they identify a good project and then start raising the funds, since it is a non-profit organization they are not expected to keep any money with them at the end of the year. Will follow up with them again. I am planning for a short visit to India. We can meet for 15 to 30 minutes if possible at Hyderabad – **Koti Tummuru**, USA

It's pleasure interacting with you. The conversation which we had for 7 minutes, it's very much thought provoking. I will surely get back to you on this (abhaya's expectations as published in page no:). Need some more time to introspect and do bit of SWOT analysis as I don't want to make false commitments. Thanks for your time – **Sahiti**, EMRI, Hyderabad.
